

## OPERATIONAL EXCELLENCE LEAD (LEAN)

Kaunas

Salary: 2200 – 3700 Eur gross

### JOB DESCRIPTION:

- Develop and support the Kitron Group Operational Excellence (LEAN) process and culture, ensuring standardization across sites.
- Ensure non-value-added activity is reduced in all operations processes by using LEAN tools and techniques.
- Prepare training materials for LEAN tools and implement them in the internal learning management system.
- Archive LEAN documents.
- Organize theoretical and practical LEAN/6Sigma training for all Kitron Group sites.
- Ensure the good and efficient process of LEAN projects and prepare reports.
- Audit Kitron Group sites in accordance with agreed LEAN standards.

### REQUIREMENTS:

- Education level at Bachelor or Master level within manufacturing or technology, preferably within electronics, mechanics, or automation industry.
- Knowledge of Lean/6Sigma continuous improvement tools.
- Good knowledge of “root cause” analysis and statistical analysis methods.
- Basics of quality assurance knowledge.
- Analytical skills, ability to perform and summarize the analysis of key data.
- Experience in Project management.
- Fluent English language skills, both verbal and written.

### COMPANY OFFERS:

- Performance-based annual bonus.
- Accident insurance 24/7.
- Full travel insurance (valid on business trips).
- Hybrid work type and flexible working hours.
- Opportunities for personal and professional development.
